

## **Week of the Young Child(Tuesday)**

### **KauKau Kalo**

**For this activity the intention is to give keiki a hands on experience(sensory) with the kalo plant and demonstrate how it is a solid food source to the hawaiian people.**

**It will also demonstrate cause and effect.**

**How did the Kalo go from a solid to a paste?**

**Was the task easy or hard?**

**Kumu are going to purchase kalo and steam for keiki. Keiki will be given the opportunity to peel the skin off the kalo. They will then rinse it and also pound it( make pa'i ai ). Once they are done with the pounding process, they will be given a chance to try(eat) poi that the kumu had purchased.**
